SUMMARY

I'm a bilingual programmer, fluent in te reo Māori and English, with strong technical skills. I stand out because I can combine programming expertise with creativity and cultural understanding to build solutions that are practical, inclusive, and people-focused.

EXPERIENCE

FULL STACK DEVELOPMENT INTERN

Seen Ventures/Toro Tech

2025

Contributed as a developer on an innovation project exploring how AI agents and interactive avatars can preserve stories and strengthen language immersion. Collaborated closely with product, design, and research teams to design and build technical solutions.

- Key Contributions:
- Helped define technical requirements and contributed to the solution architecture.
- Developed AI-driven workflows for interactive avatar-based experiences.
- Built and tested prototypes of immersive learning activities.
- Designed and implemented application wireframes and components.

OVERNIGHT STOCKER (PART-TIME)

The Warehouse Group

2023-2025

- Executed precise inventory stocking and layout organization.
- Maintained a clean, hazard-free workspace.
- Demonstrated reliability and self-discipline during overnight shifts.
- Managed tasks efficiently to meet nightly stocking goals

LANGUAGES

- English(fluent)
- Te Reo Maori(fluent)
